A GREAT MEDICAL DISCOVERY

DEPEW'S MEDICAL VICTORY.

DR. DEPEW OF PARIS, FRANCE, an eminent physician of France, Scotland, and elsewhere, Great British Family—a Purely Vegetable Compound—has cured thousands of cases of Rheumatism, Gout, Gravel, Catarrh of the Bladder, Dropsy, Dropsy of the Liver, Dropsy of the Stomach, Dropsy of the Lungs, Dropsy of the Kidneys, and other "vital" ailments, and is not wanted beyond the hope of repair.

For the cure of Rheumatism, Gout, Gravel, Catarrh of the Bladder, Dropsy, Dropsy of the Liver, Dropsy of the Stomach, Dropsy of the Lungs, Dropsy of the Kidneys, and other "vital" ailments, and is not wanted beyond the hope of repair.

such an exhibition, but many arise under such peculiar circumstances that they will not bear a repetition. It is interesting to note the surprise manifested by the women when admission money is demanded. One woman endeavored vainly for nearly half an hour yesterday for them.

The majority of the visitors are women, whose interest in the occurrence is unlimited. Hahn, his doorkeeper, the shoemaker, and everything which appears to possess any knowledge of the matter, is examined most thoroughly by inquisitive tongues. There are some few men who go, but they generally behave like cats in a strange garden, and apparently are glad to get out of the place. Mr. John Hahn is about 30 years of age, and is a cigar-maker by trade, just how he got to be a

The interest continues to increase daily and the receipts accordingly, and the couple may be well warranted by their present success to believe that "there's millions in it."

Mrs. Hahn's condition is said to be somewhat improved, and the attending physicians consider her in a fair way towards a speedy recovery.

Why the Red Sea is Called Red.

A question that has puzzled scholars, found a solution some time since in the observation of an Arabian scholar in direct

the name of the Red Sea. The dictionary surmises that the name was derived from the red western mountains, red corals, zoophytes, etc., and appears to give little weight to the real and natural reason which came under our American's notice. On one occasion the diver observed, while under sea, that the curious wavering shadows, which cross the lustrous, golden floor like Fraunhofer's lines on the spectrum, began to change and lose themselves. A purple glory of intermingled colors darkened the violet curtains of the sea chambers, reddening all glints and tinges with an angry fire. Instead of that lustrous, golden

The view on the surface was even more magnificent. The sea at first assumed the light, tawny, or yellowish red of sherry wine. Anon, this wine color grew into richer radiance; as far as the eye could see and flashing in the crystalline splendor of the Arabian sun, was glorious as a sea of rose. The dusky red sandstone hills, with a border of white sand and green and flowered foliage, like an elaborately wrought cup of Bohemian glass enamelled with brilliant flowers, held the sparkling blue

examination, proved to be covered with thin brick-dust layer of infusoria slightly tinged with orange. Placed in a white glass bottle, this changed into a deep violet but the wide surface of the external side was of that magnificent and brilliant rose color. It was a new and pleasing example of the lustrous, ever varying beauty of the ocean world. It was caused by diatoms, minute algae, which, under the microscope revealed delicate threads gathered in tiny bundles, and containing rings, blood disks of that curious coloring matter in tin tubes. — *Transcript.*

Fame is the perfume of heroic deeds.
One crime is everything; two nothing.
Rich and poor live in like abundance
the former in wealth, and the latter in
hope.
Go down the ladder when thou marriest
a wife; go thou up when thou choosest
friend.
He who would dispute, should make
cautious use of the occasion to say things
that cannot be disputed.
He who wishes to reap a harvest of the
tears of sincerity, must first sow true love.

The true secret of living at peace with all the world is to have an humble opinion of ourselves.

If we waited until it was perfectly convenient, half of the good actions of life would never be accomplished.

Use what talent you possess. The wood would be very silent if no birds sang there but those who sing best.

Man is naturally deluded by temptation and in many cases he is not undeceived until he finds himself completely entangled in the net of trouble.

Nothing is so great an instance of all-manner as flattery. If you flatter all the com-

Life runs not smoothly at all seasons even with the happiest ; but after a long course the rocks subside, the views widen and it flows on more equally at the end.

If all men were to bring their misfortune together in one place, most would be glad to take his own home again, rather than take a portion out of the common stock.

Honest and courageous people have very little to say about their courage or their

With time and patience, the mulberry leaf becomes satin. What difficulty is there at which a man should quail, when a worm can accomplish so much from the leaf of the mulberry!

Gratitude is like the good faith of trade—it maintains commerce; and we often pay, not because it is just to discharge our debts, but that we may more readily find people to trust us.

A woman should never consent to be married secretly. She should distrust a man who has any reason to shroud in darkness his own intentions. In his estimation, should

To tell our own secrets is generally folly, but that folly is without guilt; to communicate those with which you are entrusted (in ways treachery, and treachery for the most part combined with folly).

Thousands have been changed by the use of the Peruvian Syrup (a protoxide of Iron) from weak, sickly suffering creatures, to strong, healthy, and happy men and women, and invalids cannot reasonably hesitate to give it a trial. For Dyspepsia and Debility it is a specific.

the same time in Belleville about noon
each day.

Daily Intelligencer.

THURSDAY, MARCH 4, 1875.

Town and Vicinity.

POLICE COURT.—There was nothing in
Court this morning.

PALE REPERT.—It will be seen by ad-
vertisement that Messrs. Ranney & Co.,
have any quantity of coal, with which they
can supply their customers.

THE MARKET.—Business was very dull
today, the attendance both of buyers and
sellers being limited. The roads are again
so blocked that travel is now more difficult
than ever.

COUNTY COUNCIL.—There was no session
of Council this morning; the reason for
this being that several Committees had to
be given time to report upon the impor-
tant matters committed to their charge.

OTAWA HALL.—The celebrated Holman
Opera Company will make their first ap-
pearance in Ottawa Hall this evening.
Their merits are well known, and the list
of artists published in our advertising col-
umn shows that the company is now among
the best of the age. Admission: 25, 50,
and 75 cents.

COULDA.—The match for the Pictou
ly medal terminated in favor of the Scotch-
men, by a formidable majority. The
medal is consequently still in their custody,
and "the other side" will need to practice
carefully before they can reasonably hope
to wrest the trophy of victory from the
representatives of the "land o' cakes."

THE TRAIN.—The storm of last night,
though it impeded the trains very much,
did not block up the road. The "mixed"
last night arrived nearly on time, but the
express was delayed about eight hours by
drifts at Scarborough and Newmarket. The
eastern express was about six hours late,
but the noon express was only twenty-five
minutes behind time.

MILITARY FUNERAL.—The remains of
the late R. P. Darcy were interred this
afternoon, with military honors, in the
cemetery at the Oldfield, by the Marine
Canadian Society, the Town Council and
Corporation officials, besides a large
number of sorrowing friends, followed the
body to the grave. The procession, which
was very imposing, was witnessed by a con-
siderable number of spectators.

THE CELLS.—There were four persons
in the cells last night for protection—three
men and a woman. The men, who had
been working on the Northern Colonization
Railway, are on their way west in search
of employment, and took a night's rest
before leaving in the police station.

CHURCH OF ENGLISH MISSION.—We are
informed this morning and evening Sunday
services, and Sunday School, have been
regularly and punctually held at North-
cott's School House, by the Rev. James
McKinnon during the past year. It is
proposed, as will be seen by advertisement,
to have a concert to aid in the settlement
of expenses which have been incurred. We
trust there will be a good attendance. We
learn that the proposed new church near
the station will be commenced as soon as
frost is out of the ground, and that some
of the materials are already laid.

PICNIC RACES.—The following is a report
of the second day's races at Picton: The
track was in good order, except a little agitated
by the 2.40 race, which was commenced yester-
day, was delayed to day. Deck Wright first,
Factory Girl second. Here third; time 3 minutes.
In the country pace the entries were
made—Black Bird, Black Jim, McHawk
Maid, Lady Temple, Currie, Corvus. Lady
Temple took three straight heats, Currie
second, McHawk Maid third. Time,
2:10, 2:12, 2:13. In the 2.50 purse there were
four entries—Deck Wright, Hero, Walter,
Factory Girl. First heat—Deck Wright first,
Hero second, Walter third, time 2:53.
Second heat—Deck Wright first, Walter sec-
ond, Hero third; time 2:52. This race will
be finished to-morrow.

A daily dressed lady slipped and fell near
the Post Office, yesterday, and the clerk
opposite, who wanted her to her feet inquir-
ing, "Did you break any bones, madam?"
"No, I gave but," she replied, "but I am
just as bad as if I had broken a dozen of 'em."

The female in Asia Minor is reported as
bad as ever; the relief sent is declared in-
sufficient, and measures are to be taken to send
more. The Sultan should look better after
that part of his dominions, while he is spend-
ing so much money to have arms made for
him in America.

Ice two inches thick will support a man
at a thickness of three inches and a half it
will support a man on horseback; five
inches of ice will support a horse and a
cannon; eight inches, a battery of artiller-
y with carriage and horse; ten inches, a
small battery; twelve inches, a full battery;
fifteen inches, an army—an invulnerable
army. These are the guidelines for the benefit
of small boys and skaters generally.

Special Telegrams.

FROM OTTAWA.

The Pacific Railway.

CONTRACT FOR THE GEORGIAN BAY BRANCH.

OTTAWA, March 4.—The tender for the construction of the
Georgian Bay Branch has been awarded to
Senator Foster, President of the Canada Cen-
tral Railway. The route is a subsidy of \$100,
000 and 20,000 per mile. The contract is to
be completed before the 1st of January, 1877.
The Canada Central extension from Huron-
ville, to connect with the main line, of the
Georgian Bay Branch, receives a subsidy
of \$10,000 per mile. The line will extend
from Huronville through Douglas having
Pembroke as the end.

FROM QUEBEC.

Rumors of Cabinet Changes.

CHARLEVOIX ELECTION TRIAL.

Boy Drowned.

It is rumored that some Cabinet changes
are not improbable, and that as early as
Hon. Mr. Laurier, Speaker of the Legislative
Council, will resign, and it is further asserted
that Mr. Malin will give up his portfolio
as Minister of the Interior, the sitting
Minister, Mr. Blais, who will lead in the
Lower House.

The hearing of the contested election case
for the County of Charlevoix, which was to
take place on Thursday last, has been post-
poned till the 12th of April, the petitioner, F.
X. Cima, ex M. P., has failed to produce the
necessary evidence to support his claim.
The hearing of the case will be postponed till
the 12th of April, the petitioner, F. X. Cima,
ex M. P., has failed to produce the necessary
evidence to support his claim.

A lad, aged 10 years, son of Mr. Joseph
Chabot, Blacksmith, of L'Orleans, was ac-
cidentally drowned on Tuesday in a well on his
father's premises.

MORNING DESPATCHES.

EUROPEAN.

The Political Situation in France.

FRENCH CAVALRY.

LONDON, March 3.—A report to the Times
from Versailles says, negotiations for the
formation of a new cabinet are progressing
and will probably be concluded to-day. Should
they succeed, M. Buffet will be Vice-Pre-
sident of the Council, without portfolio. The
appointment of Minister of the Interior is as
yet unsettled.

BERLIN, March 3.—The North German
Gazette says, the French Government has
ordered the purchase of 10,000 cavalry horses
in Germany. The Gazette hopes that the
German authorities will take steps to prevent
such purchases.

AMERICAN.

Massachusetts Labor Trouble.

STRIKERS AT PITTSBURG REPLACED.
PITTSBURG, Pa., March 4.—The Pittsburg
Belt Company procured a gang of colored
men from Richmond to replace their striking
employees. Upon their arrival here yester-
day the colored men were welcomed upon the
strikes, who offered to pay their fare to Rich-
mond if they would return. The offer was
refused, and the colored men went to work
without molestation.

BOSTON, Feb. 3.—The South Boston Colli-
ery Works, owned by Holley, Collins, Peck-
ham & Co., were totally destroyed to-night.
Loss, \$75,000.

MEMPHIS, March 3.—The first result of
the Civil Rights Bill occurred at the New Mem-
phis Theatre to-night. Two colored men who
had purchased tickets for the Dress Circle,
applied for admission and were refused a
ticket, was arrested at the instance of Tom
Darcy, Manager, who, it is said, will make
this a test case of the constitutionality of the
law in event of suit being brought by those
who had tickets.

CHICAGO, March 4.—The House last
night passed a bill making a portion of the
land of Mackinac a National Park.
New York, March 4.—A fire at Fort Ham-
ilton last night, destroyed the wood work of
the whole north end of the Fort. Loss \$15,
000 to \$20,000, no insurance, being Govern-
ment property. The fire apparatus of the
Fort proved almost worthless, and the fire
department of Brooklyn rendered the most
valuable paper fire of Wm. H. Parsons
& Co., lately discovered that their book-
keeper, Louis K. Cushman, had been robbing
them for a number of years. He finally
altered a check and secured \$1,700 of the
bank, with which he fled to Canada, where
he is supposed to be.

THE CIVIL RIGHTS LAW.
Fire in Fort Hamilton.
A DISHONEST BOOK-KEEPER.

FALL RIVER, Mass., March 4.—The closing
of the Chase Mill to-day makes six mills com-
pletely closed. The pay-roll of these mills
amounted to \$200,000 and \$100,000 per
month, while in proportion to this sum the
subscriptions in aid of the strikers are small.
The assessments of operative employees have
been doubled.

PITTSBURG, Pa., March 4.—The Pittsburg
Belt Company procured a gang of colored
men from Richmond to replace their striking
employees. Upon their arrival here yester-
day the colored men were welcomed upon the
strikes, who offered to pay their fare to Rich-
mond if they would return. The offer was
refused, and the colored men went to work
without molestation.

BOSTON, Feb. 3.—The South Boston Colli-
ery Works, owned by Holley, Collins, Peck-
ham & Co., were totally destroyed to-night.
Loss, \$75,000.

MEMPHIS, March 3.—The first result of
the Civil Rights Bill occurred at the New Mem-
phis Theatre to-night. Two colored men who
had purchased tickets for the Dress Circle,
applied for admission and were refused a
ticket, was arrested at the instance of Tom
Darcy, Manager, who, it is said, will make
this a test case of the constitutionality of the
law in event of suit being brought by those
who had tickets.

CHICAGO, March 4.—The House last
night passed a bill making a portion of the
land of Mackinac a National Park.
New York, March 4.—A fire at Fort Ham-
ilton last night, destroyed the wood work of
the whole north end of the Fort. Loss \$15,
000 to \$20,000, no insurance, being Govern-
ment property. The fire apparatus of the
Fort proved almost worthless, and the fire
department of Brooklyn rendered the most
valuable paper fire of Wm. H. Parsons
& Co., lately discovered that their book-
keeper, Louis K. Cushman, had been robbing
them for a number of years. He finally
altered a check and secured \$1,700 of the
bank, with which he fled to Canada, where
he is supposed to be.

THE CIVIL RIGHTS LAW.
Fire in Fort Hamilton.
A DISHONEST BOOK-KEEPER.

FALL RIVER, Mass., March 4.—The closing
of the Chase Mill to-day makes six mills com-
pletely closed. The pay-roll of these mills
amounted to \$200,000 and \$100,000 per
month, while in proportion to this sum the
subscriptions in aid of the strikers are small.
The assessments of operative employees have
been doubled.

PITTSBURG, Pa., March 4.—The Pittsburg
Belt Company procured a gang of colored
men from Richmond to replace their striking
employees. Upon their arrival here yester-
day the colored men were welcomed upon the
strikes, who offered to pay their fare to Rich-
mond if they would return. The offer was
refused, and the colored men went to work
without molestation.

BOSTON, Feb. 3.—The South Boston Colli-
ery Works, owned by Holley, Collins, Peck-
ham & Co., were totally destroyed to-night.
Loss, \$75,000.

MEMPHIS, March 3.—The first result of
the Civil Rights Bill occurred at the New Mem-
phis Theatre to-night. Two colored men who
had purchased tickets for the Dress Circle,
applied for admission and were refused a
ticket, was arrested at the instance of Tom
Darcy, Manager, who, it is said, will make
this a test case of the constitutionality of the
law in event of suit being brought by those
who had tickets.

THE COSPATRICK DISASTER.

End of the Official Inquiry.

On Monday terminated the official inquiry into the loss of the Cospatrick. The court, which had been sitting since the 1st of January, after a session of nearly two months, has now adjourned. The inquiry was held in the Court of Sessions, and was presided over by the Lord Justice Clerk. The evidence was taken from the survivors of the ship, and from the crew of the ship which rescued them. The inquiry was a very full and complete one, and it is believed that the public will be satisfied with the result. The Cospatrick was a ship of 1,100 tons, and was bound for Glasgow. She was lost on the 21st of January, and all hands were lost. The inquiry was held in the Court of Sessions, and was presided over by the Lord Justice Clerk. The evidence was taken from the survivors of the ship, and from the crew of the ship which rescued them. The inquiry was a very full and complete one, and it is believed that the public will be satisfied with the result.

THE SUN.

DAILY AND WEEKLY FOR 1875.

THE approach of the Presidential election

gives considerable importance to the

development of 1875. We shall endeavor

to describe them fully, faithfully and fearlessly.

THE WEEKLY SUN has now attained

circulation of over twenty thousand copies. It

is not only a valuable source of information

to the public, but it is also a valuable

source of information to the public.

It is our aim to make the WEEKLY SUN

the best family newspaper in the world. It

will be full of interesting and appropriate

of every sort, and will give a full and

complete account of the most interesting

and important events of the day.

The Agricultural Department is a prominent

feature in the WEEKLY SUN, and its

articles are of great value to the farmer.

The number of men independent in politics

is increasing, and the WEEKLY SUN

is a valuable source of information to

the public. It is our aim to make the

WEEKLY SUN the best family newspaper

in the world. It will be full of

interesting and appropriate of every

sort, and will give a full and complete

account of the most interesting and

important events of the day.

The Agricultural Department is a

prominent feature in the WEEKLY

SUN, and its articles are of great

value to the farmer.

The number of men independent in

politics is increasing, and the

WEEKLY SUN is a valuable source of

information to the public. It is our

aim to make the WEEKLY SUN the

best family newspaper in the world.

It will be full of interesting and

appropriate of every sort, and will

give a full and complete account of

DOMINION PARLIAMENT.

THE SENATE.

Hon. Robt. Read's Speech on the

Reciprocity Treaty, 25th

February.

From the Ottawa Times.

Hon. Mr. READ said in entering upon

the discussion of the proposed Treaty with

the United States, he would do so with

the greatest care, and with the greatest

attention. He would do so with the

greatest care, and with the greatest

attention. He would do so with the

WHAT OTHERS SAY?

We copy the following article on iron from the *London Standard*, which is the best authority on the subject.

"These amongst us who believe that the development of iron-making in Canada is of importance sufficient to warrant our sending public notice to private effect for the purpose of securing the best results, will be surprised to find that the subject has not been neglected in these columns. We have constantly maintained that for the community as a whole to be benefited, the iron industry should be encouraged, and that the Government should be the agent for this purpose."

Mr. YORKE said that he was surprised that the Government had taken the position they had in respect to the iron industry. He was in favor of the iron industry, and he was in favor of the Government's policy.

Mr. CARROLL said that he was in favor of the iron industry, and he was in favor of the Government's policy.

Mr. CARROLL said that he was in favor of the iron industry, and he was in favor of the Government's policy.

Mr. BOWELL said that he was in favor of the iron industry, and he was in favor of the Government's policy.

...port of the Inspector of Ed

CONTEMPLE.—After my appointment in 1871, I was asked by W. Wood, the Warden, to give the Council a short account of what I was doing for the schools. I did that time, and I have done so every year. I now present to you a report of the school in the South of South Hastings for 1874. It contains a list of the names of some of our scholars pertaining to the school.

Shortly after the introduction of the school law, the schools were supplied with tablets, maps, blackboards, and many other apparatus, and year since more maps and object lessons have been supplied. It was not in 1874 every school was supplied with all the apparatus necessary for the successful teaching of pupils attending them.

Inspectors are responsible to the Department for the successful carrying out of the new school law though they receive their appointment from the County Council. It is to see that the grounds are fenced, outbuildings built, school houses furnished with maps and apparatus, that new school houses are built where necessary, and that the houses are repaired. A report has to be sent at the end of each year to the Department according to a prescribed form, and containing all the information asked concerning each school, and a list of the names of the teachers. The inspectors also have to be sent from each school to monitor the progress of the children, and to answer 40 questions relating to the duties of the teachers and the teaching and management of the school.

The schools have been examined the last year, and the results are as follows:

If this had not been done, our school would not have improved so much as they have. We have had no training, never having attended a normal school the last three years, as many of the teachers have had no training, never having attended a normal school. To remedy this situation, we have sent the school to the South Hastings Teachers' Institute, which was started in 1871 and has met regularly on the third Saturday in every month since. We have done an immense amount of good to the school, particularly to the inexperienced young teachers. It has been well attended, and the results are very good.

attends regularly have been very much fitted.

As many of the teachers of Humes' Township could not attend, a Convention was held in each township, at which the method of teaching all the school was shown. It is intended to hold these Conventions in each township.

There are 83 Teachers in South H. not including Trenton; of these only 1 attended the Normal School; 16 have vinical certificates; 57 Third Class (and 12 have interim certificates).

In introducing the new School Law, we proceeded very cautiously, trying to do the best for the necessity of proper accommodation, and only in a few cases have Trustees been strongly

provide more suitable accommodations could always get Trustees to send for tablets, etc., by having printed applications provided by the Department—and then a list of what was needed; but I did not so to induce some to build school houses, purchase one-half gross of tablets for free, and so on, without incurring the ill-will of some yet school houses had to be built, and intelligent people of South Hastings, and there is a law compelling Trustees to have a suitable school house for their children.

Last March I reported to this Council there had been built 20 new school houses from the time of my appointment up to 1873, and last year there was built a

two-story brick house in Shannonsville, Pa. The house and 1 frame house in Tyndensing in Hagerford there was built one good house at Marlbank in Thurlow. There were built brick houses in class in the Smithville school, in all 28 school houses that have been since 1871. Next summer there will be splendid brick house in Mill Point, near Thurlow, a good brick house in S. S. S. Thurlow, in one in Tyndensing; in Hagerford 3 houses will be built brick and the others frame.

The law requires that each S. S. be provided with a library and a well, but not thought wise, when money is not to be paid to the school board for the purchase of a library. Trustees to the assurance

The law. This year something will be done as very few Sections have a and a well.

There are 77 school houses in Southings; of these 20 are brick, 11 stone frame and 6 log. Of these Sidney has brick, stone, and 7 frame; Thurlow has 3 frame and 4 frame; Tyndang has 6 brick, 3 stone, 13 frame and 2 log. Of these will be replaced this year, 3 houses; Hungerford has 1 brick, 3 frame and 3 log, but one of these will be replaced by a better house this year.

The amount received from all the school purposes, in Sidney was \$8,922.67; Thurlow, \$12,076.64; in Tyndang \$109.14; and in Hungerford, \$67.00.

The highest salary paid a male teacher in Sydney, \$8,564; in the Hunter, \$8,475; and in the average of the three, \$8,519. The lowest salary paid a male teacher in Sydney, \$6,052.17; in Tyndimaga, \$6,342.62; in the Hunter, \$6,457.30; and making \$2,544.00 for repairs and grounds in South Hastings \$2,544.00; and building \$5,400.07.

The highest salary paid a male teacher in Sydney, \$800; in Thurlow, \$580; in Tyndimaga, \$475; and in Hunterford, \$600. The average salary paid a male teacher in Sydney, \$750; in Thurlow, \$400; in Tyndimaga, \$350; and in Hunterford, \$380; the average salary paid female teachers, in Sydney, \$520.00; in Thurlow, \$245; and in Hunterford, \$240; the highest salary paid a teacher in \$830, and in Tyndimaga.

Of the teachers teaching in 1874, or

The number of children from 5 to 14 years of age in Trustee's cottages, are for the following: Tysnäs, 1,289; Tyendinaga, 1,370; in all 6,630; number recorded in the School register only 5,243, leaving 887 from 5 to 14 who do not attend any school. 84 scholars in Tyendinaga attended less than 90 days; in Thurlow, 281; in Tysnäs, 281; in Tyendinaga, 281; in all less than 90 days.

221 in Kidney went to school less than 10 days; in Thurlow, 206; in Tyndal, 190; and in Hungerford, 284; in all 114. In Kidney, 13 from 7 to 12 did not attend school; in Thurlow, 12; in Tyndal, 12; in Hungerford, 29; in all 196, from 7 to 12. The school trustees believe that a far larger number of children should attend any school.

It is a matter to be much regretted that children attend school so irregularly, a so many do not attend any school.

Trustees are required by the school law of 1874, to ascertain before the 31st day of

THE LOCAL PAPER.—The New York Tribune contains the following just remarks in relation to the local newspapers: "Nothing should be read by the people—nothing more common than for the people to take what they pay for—corruption, &c., as much given to them for charity. Newspapers, enhancing the value on property in the neighborhood and giving the localities a better knowledge of the world, and the things they are published a reputation, should benefit all such, particularly if they

are real estate owners, thrive the amount yearly of the meagre sum they pay for their support. Besides, every public edifice has a laudable pride in having a paper of which he is not ashamed, even though he should pick it up in New York or Washington. A good-looking, thriving sheet lodges property, gives character to a locality and is in many respects a desirable public convenience. If you want good, readable sheet, it must be supported—not in a spirit of charity, but because you feel it a necessity to support it.

Daily Intelligence.

MONDAY, MARCH 4, 1878.

Town and Vicinity.

Town Council—Regular meeting to-night, when a good deal of important business will probably be transacted.

Personal—It afforded us pleasure to see the Town Clerk this morning to receive his duties as soon after his recent absence.

Personal—Hudson's band, the members of which have been furnished with new uniforms since their last visit here, paraded the streets this morning and furnished some really good music.

Personal—Alderman Willoughby Clark (of the firm of Clark & Woodson) of Winnipeg, Manitoba, is in town on his way to Ottawa, intending to stop a few days, and will then offer by public auction a quantity of valuable Winnipeg City property.

Mountains View—Rev. Mr. Waldon, of Amherstburg, in holding protracted meetings at Centre Church, Mr. S. G. Way, whose residence was lately destroyed by fire, is engaged in hauling materials for a new brick house.

Ship-Bellows—Although the tide is full, it is feared that Mill Point is not the only place where the St. Lawrence where vessels have been built during the past winter. One has been finished at South Bay, and the keel of another vessel, full cargo size, was laid a few days ago.

A Lively Time—Saturday afternoon and evening proved a lively time for the police. They arrested three persons for being drunk and disorderly, one for larceny, and one or two more for other offences. In all, there were eight arrests of the police last night, one or two of them being for the first time.

Keep to the Right—"Much inconvenience and delay" would be dispensed with if this little rule were universally pursued. In passing anyone on the street, locomotion would be greatly facilitated, especially on Saturday nights, when our streets are very much crowded with pedestrians, if everyone would bear in mind and act upon the injunction "keep to the right."

GRANDS—The new order of the Patrons of Husbandry does not seem to "take" amongst the rural community of this locality, although both east and west of us the farmers have taken hold of the matter and prospered gloriously have been organized and are now in successful operation. The people of Lennox are so initiated with the move of the Grand, that they have elected a Grand, and sent their interests in the Ontario Legislature.

The Weather—The spring-like mildness of the temperature which Saturday brought us continues, and the snow is disappearing very rapidly, whilst the sidewalks are in a very bright light generally, especially in front of the Post Office. The advance guard of the little birds have arrived, and some of the early spring birds have been heard "tuning their lay" in the gardens at noon yesterday. Winter's early departure is the most popular topic of the day.

METROPOLITAN HALL—The Herndon dramatic company will to-night begin a season of six nights in the Metropolitan Hall. The play will be the favorite Irish drama, the "Colleen Bawn," which never seems to want in popularity, as it always proves attractive. Mr. Herndon's company is decidedly in favor here, being well managed in every respect, and the plays selected for production comprise the best works of the most celebrated authors. A liberal patronage will doubtless be bestowed upon this well known company during their stay here.

SPRING—There can be no doubt that spring is at hand, for the crowd that is powerful, fainting—begins his lullaby song, and wags his strong little finger and thither in a restless manner. This is a sure sign that spring is close at hand, and another sign not less infallible is that some of the old residents of the town on the west side of the river (who are not "died" the slaves, by any means) are getting ready for removal into the second story of their dwellings. These signs of a coming flood are about as good as any that we know of.

CARLESS DRIVING—On Saturday, escaped from accident by careless driving were numerous. A little boy who was that day knocked down by a horse, and whose owner the driver did not pay sufficient attention, got up fortunately none the worse, and rested his indignation by throwing, with all his little might, a brick ball after the careless driver, who passed on as if nothing had happened. In another instance, two gentlemen quite narrowly escaped being run over by a horse, the driver of which, although speaking at a fast gallop along a street on which there was a good deal of traffic, was yet looking behind him.

A reference to this matter is implicitly desirable, as upon "accidents" will result from the neglect of their plain duty by drivers of horses.

Police Court.

(Before A. Davidson, Esq., P. M.)

Monday, March 4.

There was a heavy list of prisoners—no less than seven persons being put through the judicial mill.

Drunk and Disorderly—Frank Carr, William Riddiman and Edward Walcott, who were here last night this morning, and according to high usage and custom, were discharged.

John Wilson, late fortunate, was fined \$1 and costs of 10 days in gaol.

George Mackenzie, a new applicant for a temporary house (rent) "given have come again," was not admitted to the court for 30 days, with the addition of hard labor to her sentence.

James McDonald was "put out," for 30 days, in addition to the sentence imposed.

Elizabeth Whitlaw, wife of the "hush gang" whose offence is in the gaol, was sent back to her comfortable quarters for 30 days, with the addition of hard labor to her sentence.

James McDonald was "put out," for 30 days, in addition to the sentence imposed.

MORNING DESPATCHES.

EUROPEAN.

A PAPAL CONCESSION.

LONDON, March 3.—The Times' special despatch states that the Pope has permitted the Austrian bishops to comply with the request of the emperor to the effect of compelling them to notify the authorities of the names of the priests appointed to livings.

This is a concession in Berlin as evidence that the Pope is actuated by political motives, as the resistance which he encourages of the Prussian Bishops to a similar law is the principal cause of the present troubles with the Roman Church.

LIVERPOOL, March 3, 12:30 p.m.—Cotton quiet and unchanged.

AMERICAN.

Senate Committees.

NATIONAL SOLDIERS' HOMES.

A DISHONEST OFFICIAL.

THE MIDLAND RAILWAY.

New York, March 3.—A Washington despatch says, Johnson's absence from the Democratic caucus on Saturday was accidental. He has been assigned to the Committee on Foreign Relations to succeed Schurz; Kernan will succeed Fenton on the Finance Committee; Jones, of Nevada, becomes Chairman of the contingent expenses of the Senate; Patterson, of South Carolina, becomes Chairman of the Committee of Education and Labor.

The annual meeting of the Board of Managers for National Soldiers' Homes, which has been held at the White House, closed on Saturday evening. There were present, President Grant, the Secretary of War, and others. Quarterly reports were read, and necessary appropriations made for the maintenance of the homes for the present year.

Van J. Coddington, Collector of Customs at Perth Amboy, New Jersey, has been declared a defaulter to the amount of \$2,000, and has been suspended from office.

New York, March 3.—In the United States Circuit Court, in the matter of the New York & Oswego Midland Railroad, Judge Blatchford decided on Saturday, that by the Act of 1865 the State made a valid contract not to levy taxes on the New York & Oswego Midland Railroad during the time specified. He also says, however, that the Act of 1865 must be taken as part of the charter of that road, and that by virtue of the constitution of the State of New York, the provisions of the revised statutes and the general railroad law of the State, power to alter, amend or repeal the charter of the road is vested in the Legislature. From these premises, the Judge draws the conclusion that the Act of 1865, being part of the charter, the Legislature could alter, amend or repeal it as far as it related to taxes to be levied after its passage, and that therefore the Act of 1874, repealing the one of 1865, is not unconstitutional and void. Other questions concerning the validity of the act and mode of levying them that road, will be argued on March 13th, for the meantime, injunctions restraining the tax collectors from selling the property of the road already seized upon, and from making any more levies are granted.

Afternoon Dispatches.

COLDER WEATHER.

THE VIRGINIUS AFFAIR.

EXCHANGE OF PRISONERS.

SNOW STORM.

THE SENATE.

THE BEECHER TRIAL.

WASHINGTON, March 3.—Probabilities—The following table, north of the city, colder clearing or cold weather, and rising barometer.

MADRID, March 3.—The Convention between Spain and the United States for the settlement of the Virginia affair has been signed.

The Afghans and Carlists are exchanging prisoners.

PARIS, March 3.—The order forbidding the sale of the Nineteenth Century newspaper has been rescinded.

TORONTO, March 3, Y. March 3.—The snow storm of last night was the heaviest experienced here in many years. Nearly a foot and a half of snow has fallen. Five freight trains are blocked in south of here, and three locomotives have been sent to help them out. The Atlantic express train is several hours behind time. Feary of a disastrous frost, are reported.

WASHINGTON, March 3.—The motion of Morton in the Senate has been reported for the admission of Pinchback, as Senator from Louisiana. Mr. Morton then addressed the Senate at some length in favor of sending Pinchback on his commission, charging that his opponents constituted a prime fact case, and he must be seated. Any question as to the character of the body which elected him, the manner of his election to be inquired into afterwards.

NEW YORK, March 3.—In the Tillotson trial to-day, Mr. Jeffrey, the sick juror, was removed and replaced by Mr. Putnam, again placed on the bench by direct designation as continued by Mr. Sherman.

REMARKABLE THUNDER.—Special despatches from Johnston, N.Y. give the particulars of a very heavy thunder storm, which occurred last night. Mr. Edward Test, a grocer, was the merchant of that place, who was sleeping in Hay & Wills' Bank, was brutally murdered in his bed, and robbed of \$800, a gold watch, and a diamond pin. The bed was afterwards set on fire, in an ineffectual attempt to hide the crime. The body of the unfortunate man, when found early this morning, was burned beyond recognition, but the circumstances leave no doubt of his identity.

Commercial.

Montreal Money Market.

Montreal, March 3.

The money market is quite nominal today, transactions in exchange being only in small lots. Sterling rates are unchanged, but gold drafts appear to be getting tighter and in fact demand has been quoted at from 4 to 10 per cent. Small sales at the latter rate, making change in the way of time. Local stock market steady today and comparatively opening change in 1881 at the close; Montreal closing at 114; Ontario, 109; to Telegraph closing 162; 1881; Commerce 131; 1882; Jacques Cartier 97 1/2 to 100.

If it reported that the B. & O. and C. O. will change the gauge to correspond with that of the Grand Trunk at an early date in the spring.

Arrivals Reported at Custom House.

MONDAY, March 3.

Per O. T. H.—In bond this day: Lewis & Son, 2 bbls. (per) Riddell & Co., 1 pkg. 2 cases, 3 bales and 2 bbls.

Per Express—J. Dillon, 1 box.

MONEY MARKET AS REPORTED AT THE EXCHANGE OFFICE OF W. THOMPSON.

BELLEVILLE MARKETS.

INTERMEDIATE OFFICE.

Belleville Intelligencer

LET THERE BE HARMONY IN THINGS ESSENTIAL-LIBERITY IN THINGS NON-ESSENTIAL-CHARITY IN ALL.

VOL. 8.

BELLEVILLE, ONTARIO, WEDNESDAY, MARCH 10, 1875.

NO. 254.

INTELLIGENCER PRINTING AND PUBLISHING COMPANY.

W. A. SHEPARD, MANAGER.

THE "DAILY INTELLIGENCER."

Will appear about five o'clock daily after tomorrow (Sunday) excepted, and will be furnished by Carriers at the rate of \$3.00 a year if paid in advance, \$3.50 otherwise. The price to mail subscribers has been changed to \$3.00 a year, the old price \$2.50 for six months.

Special attention will be paid to reporting the proceedings of Courts of Law, Corporations, Public Meetings, &c., and to other matters of public interest.

Advertisements of all kinds will be accepted on liberal terms.

A liberal scale of prices for advertisements has been arranged as follows:

Cards, six lines, one month, 50 cts.
do do do, 3 months, 1.25
do do do, 6 months, 2.00
do do do, 1 year, 3.00
One square, 6 lines, one month, 1.00
do do do, 3 months, 2.50
do do do, 6 months, 4.00
do do do, 1 year, 6.00
Two squares, 6 lines, one month, 1.50
do do do, 3 months, 3.50
do do do, 6 months, 5.50
do do do, 1 year, 8.00
Four squares, 6 lines, one month, 2.00
do do do, 3 months, 5.00
do do do, 6 months, 7.50
do do do, 1 year, 10.00

Special announcements can be made in the local columns of the paper at a special rate. Advertisers contracting for any space not less than half a square, can have the privilege of changing their advertisements every two weeks.

Transient advertisements inserted at 8 cts. per line for first insertion, and two cents for each additional insertion.

The Weekly Intelligencer is published every Friday morning at 10 o'clock, and is not published on the 1st of the month.

The time of subscription, \$2.00 will invariably be charged.

Advertisements of all kinds will be accepted on liberal terms.

A liberal discount will be made to our advertisers by the year.

Advertisements for insertion must be delivered before 10 o'clock on Thursday, to insure their appearance.

All advertisements without written orders, will be charged full price, and charged accordingly.

For Venereal Complaints, whether in young or old, married or unmarried, at the dawn of womanhood, or at the close of life, the Medical Victory has no equal.

In the cure of Rheumatism, Dyspepsia, Liver Complaint, and all diseases arising from impure blood, there is nothing so certain as the Medical Victory. For Regulating the bowels, and curing Indigestion, Headache, Dropsy, Catarrhs, Neuralgia, Rheumatism, Gout, Gravel, Scalding, Venereal diseases, Syphilis, Eczema, Piles, the Itch, Lint and Itch, and general Weakness and Debility, the Medical Victory is the only remedy.

It is the only safe and certain cure of **ITESTICULAR DYSPLASIA, LEUCODERMIA, AND ITCHING PINK.** It is a powerful and safe purgative and Irritator of the system, carrying off all poisonous matter and restoring the blood to its healthy condition.

Sold by **W. C. B. & CO., Wholesale Dealers,**
YOUNG, BILLS & CO.,
141th, Ontario,

BELLEVILLE, ONTARIO, MONDAY, MARCH 15, 1875

NO 252

It had been painted with Paris green. If a single grain of this poison (the 480th part of an ounce) is sufficient to cause death, it can be seen that a very little of the dust mixed into the system from time to time is enough with the most fearful danger to health and life." R. H. Price

British and Foreign Notes.

The Marquis of Sligo has raised the rents his estate in Westport 20 to 25 per cent.

The turret ship *Derwent* is to be sent the Mediterranean, accompanied by the *Arcturion*.

A workmen's procession, with bands and banners, paraded the streets of Gloucester in celebration of Dr. Kenely's return from Stoke.

The Queen has appointed the Earl of Amrore, Lieutenant of Stirling, in the room of the late Duke of Montrose.

An inquest was held in London lately on

An arrangement has been concluded between Baroness Burdett Coutts and Mr. Daniel Sallerman, the Australian meat agent, by which the Columbia Market, London, which has long been idle, will be converted into a large depot and dining hall for the supply of cheap dinners to the people.

The statement that Mr. Gladstone has been engaged in preparing a refutation of Strauss's "Life of Jesus," is declared to be

The action of the London School Board on the matter of singing, has, according to the *Musical Standard*, already effected in schools a great advance in the style of singing and the quality of teaching, and by putting an end to the vicious system of shouting and straining has caused a great improvement to the children's voices.

It is announced that there will be a little delay in issuing the Ashutree war medal, owing to a slight alteration. The design, as approved of by her Majesty, The Central India medal is suspended, the colors being black and yellow instead of scarlet and white.

Sedan will, says the *Continental Herald*, soon be an open town. The old ramparts and fortifications are in course of removal, and nothing will be left but the castle, in which Turaine was born.

Mr Macomber, the inventor of gun with

A magnificent marble statue of St. John at the age of fourteen years, supposed to be the work of Michael Angelo, who was recently exhumed near Pisa.

In the House of Lords, lately, Lord Derby stated that negotiations were pending

A new and life-size portrait model of Dr. Kenealy, the new member for Stoke-upon-Trent, taken from sittings, is now on view at Madame Tussaud's.

A boy, 12 years of age, named Livingstone, living at Garnkirk, near Glasgow, had been discharged from his employment, and this had so preyed upon his mind that he went to the line of railway and laid his body across the rails. A train passed over it, and the body was found with the head

It has been determined by the Russian Government to send fresh transports of criminals by sea to the once Japanese island of Saghalien, where the convicts will be employed in working coal mines near the Russian colony of Dob.

The accomplices recently convicted in the Ravenna of a series of murders, have, says a telegram, been planning escape. Their design was to fall upon the turnkeys when they made their rounds at night, gain the lodge of the chief warder, and thence by scaling a wall effect their egress. Happily the plot was discovered, and precautions have been taken against any repetition of such a conspiracy.

The practicability of warning the Discovery and Alert by means of hot water apparatus, on a plan proposed by Dr. [unclear] of the consideration of

A movement has been started for the purpose of establishing along the whole French coast line fishing societies similar to those in existence at La Rochelle and Bordeaux. The number of men engaged in French fishing vessels in 1873 was 77,466, and the product of their labors realized nearly eighty millions of francs.

The first half of the coil for the 80 ton run was successfully coiled in the Royal Naval Dockyard, Naples, Italy. The

The rebuilding of Warwick Castle is now completed, at an expense of between £15,000 and £20,000. In restoring the eastern wing, which was destroyed by fire, care has been taken to carry out as far as possible the original design.

presented to Parliament. These show that the convict on receiving his ticket-of-freedom in Van Dieman's land gave his parole of honor also, but that three years afterwards he handed to a police-magistrate a paper saying that he revoked his pledge, and offered to give himself up in custody, but without surrendering, he immediately mounted a horse and took flight.

The clerical famine, which has prevailed for some time in Prussia, has extended to Austria. Bishop Zwergor, of Seckau, lately announced in a sermon that in Styria

A hunter in the forest, near Wittenburg, as surprised at the rush toward him, through the undergrowth, of a wild boar, at satisfied to see in a moment more that the boar was closely followed by two wolves, he brought it to bay against a rocky wall, whereupon the hunter shot it, and the wolves retired.

The stages arrive in Belleville about noon each day.

Daily Intelligence.

MONDAY, MARCH 19, 1878.

Town and Vicinity.

THE CELLS.—There were no prisoners in the cells this morning.

VISITORS.—The Bath brass band are to visit here on St. Patrick's day, so says the *Belleville*'s correspondent.

TOWN COUNCIL.—A special meeting of Council, for the dispatch of general business, will be held this evening. The *Belleville* is in receipt of the bill of fare for the second reading of the Bonus By-law.

TEMPERANCE.—A new Lodge of Good Templars—Independent Order—has been established at Marlbank. The Temple is named the Mayflower, and the night of meeting is Tuesday in each week.

ON WHEELS.—The sleighing received a severe check by the storm of last night, and this morning a good many vehicles were seen on wheels—the zamburros, amongst others.

PREPARING FOR A FLOOD.—A number of men were engaged at Coleman's dam to-day, chopping away the ice, which is nearly three feet thick in preparation for the coming freshet. Several residents of West Belleville, were also busy clearing out the drains in the vicinity of their dwelling houses.

THEATRICAL.—Mr. Herndon's company concluded a very successful season on Saturday night, when a lengthy and interesting bill was given. It was announced that the company, with Mr. King, the celebrated tragedian, will revisit the town on the 2nd, 4th and 6th of May.

CHANGING AGAIN.—The Grand Trunk authorities have made another change in the running of trains from this station. The 4 a. m. train is now run daily, and the local due at 11:30 a. m., which has lately been run on Saturdays only, and the daily trip. These changes will be satisfactory.

A BIRD CHASE.—The Newburgh correspondent of the *Napacine Bee* writes: "A few days since a Mr. Switzer caught about 2,000 suckers on the border of Vandy Lake, in Camden. The lake being tightly frozen over and the ice deeply covered with snow, the fish rushed in great numbers into a slight opening at a spring on the west side of the lake, on Mr. Switzer's farm, and were quickly secured by being thrown out with a barley fork. This may seem fishy, but a \$100 catch at this season of the year is not to be sneezed at. Several instances of like good fortune have previously occurred on both Vandy and Mud lakes."

HIJINX ROBBED.—As Mr. Alfred Brickman, of Ameliasburg, and his brother, were driving home across the bay, between 9 and 10 o'clock on Saturday night, the latter party was the victim of a daring and successful attempt at robbery. A stranger jumped on the sleigh, and deliberately "knocking" the driver out of the sleigh, robbed him of his pocket book, which fortunately contained only some \$5, and escaped. The robber ran away and broke part of the harness in his flight, which gave the runaway some chance to escape. The robbery was unknown to the Messrs. Brickman, and it is not likely in consequence, that he will ever be detected.

A STORM.—Thunder storm in March are not of very frequent occurrence, but yesterday we had a very striking one. Early in the afternoon the thunder began to roll and mutter, and occasionally flashes of lightning lit up the somber clouds. About 7 o'clock the storm burst with great fury, the peals of thunder being long and loud, the lightning flashing almost incessantly with blinding brightness, and the rain descending in perfect torrents for nearly an hour. The effect of the storm was seen in the morning in the greatly decreased amount of snow on the ground, and the flooding of various cellars. The ice on the river is covered with water to a considerable depth in many places, and its strength must have been not a little impaired by the warm rain.

ATTEMPTED BURGLARY.—Between 1 and 2 o'clock this morning, a daring attempt was made by burglars to enter the grocery store of Mr. Gould, corner of Bridge and Coleman Streets, West Belleville. The attempt was made on the side door, on Coleman Street, the key in the lock of which had been displaced by pinners. An iron bar, however, stopped the progress of the thieves (two in number). They attempted to overcome this by pushing against the top of the door, and inserting a board, trying to pry the door open. While so engaged they made good deal of noise, which was heard by Mr. O. Bragg, who resides over the store, and also giving an alarm, the would-be robbers were scared, and fled without securing anything. The store is on the opposite corner, informs us that his shop has been twice entered by burglars within a few months, the thieves on the last occasion taking five rolls of butter, a half box of tobacco, and possibly some other articles. It therefore behooves the police to keep a sharp eye on this quarter of the town, where thieves at the present time seem to enjoy perfect impunity.

Special Telegrams.

FROM QUEBEC.

PERSONALS.

GRAND JUSTICE.—The Honorable Justice, Mr. J. R. Robinson, Secretary of the Grand Junction Railway, and Mr. J. R. Robinson, Secretary of the Grand Junction Railway, have both been in town during the last few days. It is believed that there is a possibility of an amalgamation of the two lines, and that all events of satisfactory nature will be accomplished. If the plan takes a more definite shape, no doubt our townspeople would be willing to give some aid.

A BROTHERHOOD.—A contemporary makes an excellent suggestion to Post Masters, as to the advisability of making some arrangement whereby a number of persons calling at the Post Office could obtain information regarding the mails when they are late, without incurring the necessity of troubling the clerk at the delivery. This might be accomplished by placing a black board where it could be easily seen, on which could be stencilled how late the mails might be.

THE HARBOR.—We are glad to be able to announce that the mission of the depuration to Ottawa, with respect to securing a grant from the Dominion Government for the improvement of our harbor, seems to have met with success. The Minister of Public Works promised to send Mr. Kingford, Government Engineer, to again appear at our harbor, and gave it to be understood that a grant would be made to Mr. Kingford's recommendations. We hope that the in specie will be made at an early day, in order that the work may be done this season.

INVESTIGATOR.—The doctor in which Mr. J. Lynskey, who has long held his position as Station Agent of the Grand Trunk Railway at this place, is held by his fellow employees of the Company, was fully evidenced on Saturday night, when he was presented by a gentleman with a handsome and valuable gold hunting case lever watch, adorned on a green velvet chain. The company were afterwards entertained at an oyster supper. It is gratifying to record this fact, showing that a gentleman who is so deeply engaged in the respect and esteem of those under his charge will not neglecting the interests of his employees. Mr. Lynskey has succeeded in this very difficult task, the Company having had no general loss of business, and his men having found in him one who was just, yet kind and considerate. He leaves Belleville we know with great regret, and the wishes of many will be that he may find in future homes as warm friends and as pleasant a situation as he leaves here. We learn that Mr. Lynskey will depart for Hamilton on Saturday the 18th.

A Painful Story.

William Riley, who, with his wife, was sent up to goal for ten days, on Saturday last, being without means and unable to pay the cost of his trial, was very sad and experienced in this country. The parties arrived in Montreal from England in December last. In that city they took up their residence, but found times so dull that no employment could be had. Their resources were taken in, and their two young children were taken ill and died, the one from whooping-cough and the other from measles. Their little store of money was exhausted in maintaining themselves, and their furniture was sold at auction, and the children were taken ill and died, the one from whooping-cough and the other from measles. Their little store of money was exhausted in maintaining themselves, and their furniture was sold at auction, and the children were taken ill and died, the one from whooping-cough and the other from measles.

PHILADELPHIA CENTENNIAL.

WEATHER PREDICTIONS.

THE BEECHER TRIAL.

IRON AND STEEL ASSOCIATION.

ALBANY, March 15.—Arrived, the *Albany* from New York.

LONDON, March 15.—A despatch from Berlin to the *London* says the papers there publish articles notifying persons who intend to visit the United States that the Philadelphia Centennial is still open.

WASHINGTON, March 15.—Probabilities for the Middle and Eastern States and lower half region, falling barometer, southern to north cold winds, warm weather and very heavy rain.

NEW YORK, March 15.—The Brooklyn City Court Room presented a cheerful aspect this morning. Notwithstanding the dampness of the weather outside, many ladies were present to the audience which was a little larger than usual. Mr. Beecher and wife came to court accompanied by J. S. Schultz. Mr. Tilton as usual with his lawyers. Judge Fuller is still absent. Mrs. Tilton and her friends did not put in an appearance. Mr. Evans and ex-Judge Porter were absent from the proceedings. John W. Harmon was first called and testified.

PHILADELPHIA, Pa., March 15.—At a large meeting of the Executive Committee of the American Iron and Steel Association this morning, the chairman stated that the bill had been requested to take some action in regard to the bill reported to have been introduced in the Lower House of Legislature. The bill having been discussed, the chairman submitted a communication on the subject. He stated that he has examined a copy of the bill, and says it is unconstitutional. The bill is characterized as an infamous scheme of legislation.

Daily Intelligencer.

TUESDAY, MARCH 10, 1875.

Town and Vicinity.

LATE.—The western mail was upwards of two hours late today.

PERSONAL.—The Chief of Police is still, we are sorry to learn, so unwell as to be unable to go on duty. He has now been ill for nearly nine weeks.

TO SUBSCRIBERS.—Any subscribers to the DAILY INTELLIGENCER who do not receive their papers regularly, will confer a favor by leaving word at the office.

SUMMER RATES.—The Grand Trunk Railway Company put their summer rates for freight from Montreal to points west into effect on the 15th inst., instead of the 1st of April, as usual.

ACCIDENT.—Edward Montpelier, of Brockville, engaged on the Grand Trunk R. R., was severely injured at Belleville on Friday last, by slipping from the roof of a car. Hopes are entertained for his recovery.

OPENING OF NAVIGATION.—Mariners hereabouts look for an early opening of navigation. They base this opinion on the steadiness of the weather so far, calculating that, after so long a "cold spell" in the latter part of the winter, we are likely to enjoy genial weather throughout the spring season.

DAILY SUBSCRIBERS.—Arrangements have been made so that subscribers to the Daily Intelligencer in Town will in the future receive their papers free of postage at the office of Mr. James Reid; and Daily subscribers in Bridgewater will receive their papers at the office of Mr. J. James.

POLICE COURT.—There were no cases for trial this morning. Two persons who sought shelter for the night were accommodated in the "soft side of a plank" in the Station. They left early this morning after a somewhat very refreshing night's lodging.

ST. PATRICK'S DAY.—The celebration of the anniversary of St. Patrick's natal day, to-morrow, promises to be an enthusiastic one, as the members of the Society of the Sons of St. Patrick and the Temperance Association of the Holy Cross will have a joint procession and a public dinner in the evening.

RAILWAY GUIDE.—We have received today the International Railway and Steam Navigation Guide for the month of March, published by C. R. Chisholm & Bros., Montreal. This is a most complete work, giving as it does all the United States Railways with their connections as well as our own Canadian ones, also all the steamship lines, which sail both on the ocean and lakes.

A DISAPPOINTMENT.—There was a considerable amount of disappointment in the Council Chamber last night, when it was announced that the house by-law was not ready to be gone on with, it was thought that the interest of all concerned that the provisions of the by-law should be thoroughly considered, and everything in connection with the discussion on the second reading necessary to guard the interests of the people, as well as to do justice to the promoters of the work. The matter will come up at the next regular meeting of the Council, which will take place on Monday night next.

THE SIDEWALKS.—Within a few days past there has been a capital opportunity afforded to all who disposed to clear the snow off the sidewalks in front of their premises; but it is surprising what a large number of persons have failed to avail themselves of this opportunity. The consequence is that the sidewalks are now fast for pedestrians. Another reason should not be allowed to pass without the adoption by the Town Council of a "snow by-law" applicable to all parts of the town, about the enforcement of which something could be said when needed.

A BIG CONTRACT.—Mr. Sullivan, who undertook for the consideration of \$70 to cut and clear a channel through the ice from Colman's dam to Brown's foundry, found that he had a "white elephant" on his hands. This morning he began work on his contract, but found only from 6 to 6 inches of water below the ice, which ranges from 2 ft. 5 in. to 4 ft. in thickness; and so, being unable to work the saw, he resigned the job. It is now considered that the attempt to get rid of the ice was made too early; in fact, it is all but impossible to clear it out until the water in the river rises at least two feet. Mr. Irvine Diamond had several men at work endeavoring to open a channel at the entrance of the race-way from which the mill is supplied. The thickness of the ice there was something astonishing.

THE HAND ENGINE.—After lying neglected for quite a length of time, the antiquated, yet valuable hand engine, now to have been in popular favor at least three weeks ago a number of residents of Foster Ward petitioned the Council to give them the custody of the engine, build a shed for its protection

from the weather, and the petitioners would have a competent mechanic to work it. Some certain of the inhabitants of Foster Ward petition for the custody of the engine and offer to build a house for its safe keeping. Who best of persons will be empowered to consider these circumstances is left to the committee, the "better terms" offered by Merrill Ward must tempting to the Council.

For the INTELLIGENCER.

A SQUARE.

THE WIDENING OF JOHN STREET.

Mr. Morrison.—The purchase of a Park for the Town has long been spoken of, but hitherto delayed on various grounds.

Last year, the introduction by Mr. Holden, of a by-law, amongst other things, to widen John Street was hailed by many as a step in the right direction, and much satisfaction was experienced at its passage in the Council.

For although the ground thus to be secured for the use of the public was not in extent sufficient for a park, yet an account being bounded by four streets it would really give quite enough level space for a good sized square, and would be a good substitute for the larger piece of ground, rest and enjoyment.

In the large cities, notably in Montreal, much good and great convenience is experienced from the small squares there as expansion, in which there is very little, and in the quiet of the place, rest and quiet, repose and enjoy the fresh air and change of scene—of right—the square being public property.

You are aware, sir, that the purchase of said By-Law, the northern portion of said square has already been purchased and acquisition was being had with the owner of the southern portion for proper compensation therefor, when a resolution was passed this year, after proceedings in this important matter, for a time on the ground of want of funds, and that this much needed improvement was of too local a character.

Now, sir, as to the latter objection, I beg to observe that a public square must be adjacent to some one's property, and if the latter should be increased in value surely the town reaps the benefit in the increased taxes gathered from such a square.

The opening of Foster's Avenue is a case in point when the same narrow strip was involved to cramp the energies of the town Council.

But what do we already on both sides of that street? Large comfortable dwellings, the taxes upon which, in less than five years, will more than repay the expenditure made.

The present is no time for carping at improvement in the town, on the ground of want of money. When in the past hundreds of dollars was sufficient, Councilors must in the future take of thousands being requisite for the many extensions and improvements incident to the growing wants of the town. No much opportunity may again offer to secure for the people of the town, at a small sum, so much land, and so nicely adapted for a square, as the strip between John and Foster Street.

It is but a narrow strip, at best, upon which only small tenements could be erected, marred the beauty and symmetry of that portion of town.

And sir, in my humble opinion, the expense of keeping up two streets, with grading, culverts and sidewalks, in ten years' time, would far exceed the sum to be paid for the land in question, and maintain one street.

And again, sir, would not the owners of land on Foster Street insist upon the opening up of that street to Foster Street, if the enlargement spoken of is neglected?

This would entail an extensive cutting in the lower of Meyer's Hill equal to that at the Catholic Church Hill, and would cut curiously in the first instance, and entail a yearly expenditure of no small sum.

And further, sir, may not the town be liable to those who have built on the streets in question and put valuable houses upon the faith of the by-law in question, if they have a repeal thereof.

And while on this point permit me to say, sir, in conclusion, that for any Council to annul one year the proceeding of the last, in subversion of all stability in the government of the town, and bring discredit and beggary of faith in public and private enterprise. I enclose my card, and have the honor to remain, Your obedient servant.

JOHN STEELE.
Belleville, 12th March, 1875.

Special Telegrams.

FROM QUEBEC.

HARBOR COMMISSIONERS.

QUEBEC, March 10.

Messrs. Simpson and Martel leave to-day for Ottawa in connection with the business of the Harbor Commissioners.

Weather very mild; south-east wind with rain.

FROM OTTAWA.

THE PROSPECTS OF THE SESSION.

Meetings of Committees.

EMIGRATION OF PAUPER CHILDREN.

OTTAWA, March 10.

To-day is a Government day, and the action of the Ministry will probably be decided. His intention as to several measures of action, if they do not proceed with the Supreme Court Bill this afternoon, it is thought, it will be postponed till another session.

It is likely that the House will be prepared to go up with the North-West Bill as amended, the introduction of the bill is being discussed.

Nominations Committees are sitting. The Fraser Reynolds Committee continued the examination of Mr. Reynolds, who was charged in reference to several articles, that they had been looked into. The firm charged them to the Government account at rates which in some cases had been found to be excessive.

Mrs. Macpherson gave evidence before the Emigration Committee in explanation of the course adopted by her in bringing children out from England.

A whale lately captured off the Long Island coast, about two miles from Sag Harbor, yielded thirty-five barrels of oil, and with the bone, made up from twelve to fifteen hundred dollars to its captors.

MORNING DESPATCHES.

EUROPEAN.

Death of a Veteran.

A CARLIST GENERAL GIVES IN HIS ADHESION TO ALFONSO.

THE CARLISTS DENOUNCE HIM AS A TRAITOR.

LONDON, March 10.—Field Marshal Sir Wm. Maynard Gamm, Colonel of the Coldstream Guards, and Constable of the Tower, died yesterday, aged 91 years. He was Quarter-master General at Waterloo and Commander-in-Chief of India in 1850.

PARIS, March 10.—L'Univers publishes the text of an address which it says General Cabrera has issued to the Carlists, and which he will immediately dispatch from Paris. In this paper, Gen. Cabrera announces his recognition of Alfonso as King of Spain. He points to the country's need of peace, and appeals to the patriotism of the Carlists, to discountenance a struggle hopeless from causes which he defines from revealing.

A convention between Cabrera and the Alfonsists is also being published. By its terms Carlist towns, districts and provinces submitting within a month, may retain the special and loyal privileges they enjoyed before the war, and any appointment of a Carlist to a civil or military office, which has been appointed by or may emanate from Gen. Cabrera, will be accepted and confirmed by the Alfonsists.

To these reports it is added that a Carlist proclamation appeared denouncing Gen. Cabrera as a traitor.

AMERICAN.

ARREST OF COUNTERFEITERS.

Breaking of an Ice Gorge.

Destructive Hail Storm.

FLOOD IN THE WEST.

A CHURCH STRUCK BY LIGHTNING.

THE RAILWAY WAR.

THE TREASURY DEPARTMENT.

NEW YORK, March 10.—A despatch from Galveston, Texas, says four counterfeiters have been captured at Coryell, Texas, with \$2,000 in counterfeit money in their possession.

PITTSBURGH, March 10.—The ice gorge at Kittanning, on the Allegheny River, broke yesterday without damage, though the ice is very heavy and the river running full. The ice is also breaking up on some of the smaller tributaries of the Allegheny River, causing some damage.

CINCINNATI, March 10.—A despatch to the Commercial from Montclair, Michigan, says a hailstorm of great severity raged there for about fifteen minutes yesterday, demolishing everything that came in its way.

The country in the neighborhood of Mendon, Michigan, is reported as overflowing with water, with the bridges over the St. Joseph River in danger, and the railroad track submerged.

The Wahash river, at Decatur, Indiana, is very high, and the destruction of bridges is feared.

A bridge belonging to the Indianapolis, Bloomington & Western Railroad, over the Illinois river at Peoria, has been carried away.

At McDonnellville, Ohio, lightning struck the cupola of the Universalist Church, hurling heavy timber a distance of 200 feet.

NEW YORK, March 10.—The Indianapolis & St. Louis Railroad yesterday began selling tickets to New York from St. Louis at \$20, and to New York from Chicago at \$10.

This road is the connection of both Erie and New York Central, but the Erie folks say the reduction is unauthorized, and they did not give the consent.

A Washington despatch to the Tribune says a number of important changes will be made in the Treasury Department soon. Tuttle, Assistant Treasurer, and Douglas, Commissioner of Internal Revenue, will be superseded.

AFTERNOON DESPATCHES.

THE HAWAIIAN TREATY.

WEATHER PREDICTIONS.

Mysterious Poisoning Case.

A FATAL RAILWAY ACCIDENT.

Fire in Tamaqua.

BEECHER TRIAL.

WASHINGTON, March 10.—The friends of the Hawaiian commercial treaty are more hopeful than heretofore, and think it will require the required two-thirds vote in the Senate.

WASHINGTON, March 10.—Probabilities. For the Middle and Eastern States, low but not severe; for the West, north-westerly winds, partly cloudy weather, and occasional rain or snow. For the lower lakes and the Ohio Valley and Tennessee, rising barometer, with wet to southwest winds, colder, clearing weather, and occasional snow on the lakes.

A despatch from Peoria says, a train on the Chicago, Peoria and St. Louis Railroad, struck the trestle from the track yesterday afternoon, killing an infant named Burgess, who was killed. Several other persons were injured, but only one seriously.

TAMAQUA, Pa., March 10. Philip Allaire's planing mill, and a Lumbermill's tarring place, on Centre Street, were burned last night, valued at \$100,000.

CHICAGO, March 10.—A mysterious case of poisoning occurred on Sunday night in the city of Theodore Molinski, a Polish shoemaker. The family resided at 1010 W. 10th St., and when Mr. Molinski awoke in the morning, he

discovered his wife and daughter, aged three years, were dead, and three other daughters very ill. The condition of affairs was discovered late in the afternoon by a police man who found Molinski sitting on the table, and surrounded by the bodies of his family, and he was unable to get out of the house. He was arrested on suspicion of poisoning the family. Two of the remaining daughters will die. Molinski is well spoken of by his neighbors.

NEW YORK, March 10.—Judge Pollock presented the Teller-Brooker trial today, after an absence of several days. The first witness called was Reuben W. Ropes, who testified. Almer H. Davis was next called. HAY-EDWARDS, the man who was called, Mr. Beach said it was not necessary to call any more witnesses, as Molinski did not bring having used the express, and he thought it was an improper case. Charles H. Caldwell next testified.

A criminal in Augusta, Ga., experienced such agony at receiving a sentence of death a few days since that a large part of his hair turned white during the night which succeeded his trial.

The California papers are discussing a project to construct a canal through the San Joaquin Valley, from Tulare Lake to the sea. It would be 200 miles long and cost \$3,000,000.

It has been well said that there is great waste of time and energy by those reformers and philanthropists who to bring about a amelioration, are always addressing themselves to the Head to the neglect of the Stomach. It is an elementary law governing the human system, that the Brain and the Stomach are two neighbors who cannot afford to be at enmity for any length of time, without mental deterioration, and consequent weakness and improvement in one implies improvement in the other. By using Dr. WALKER'S COMBINED EXERCISE OF PHYSIC AND CALISTHENICS the Mind and Body will become harmonized by the perfect action of the Assimilation of food, and the formation of Blood.

BIRTH.

me. Looking from the lighted room into the twilight outside, it was hardly possible that he should see anything. I thought of fling-

Once again I had almost given the thing up, and gone home; but just then the light disappeared, and the darkness was darkened. Was the old man afraid to lead, or was he, or had he gone to grope about the crypts of the earth? Should I lose his light presently? I was wrinking my forehead, and I was coughing in some stoney gallery, or find a resting-place in the golden hall? Whilst I was thus hesitating, I heard a door softly closed, and I saw a light glimmering in the distance, I went a footstep on the floor, and I saw a light glimmering at the bottom crossed on its hinge. I stepped forward, and met a grey-headed old man, with a white beard, who was looking at me, and opening the iron grille.

With all the eloquence of which I am master, I brought him to do me the good office of shaking his head; at last he relented, as you may see," he said, "against rules, and I will let you go, if you don't mind stopping in for a moment, in an hour; it will be that time before I return, and I will be glad to see you. I mind me. Do you still wish to go inside?"

"I thanked him warmly, and said: "Can I not see you, instead of waiting outside?" He put questions and acclamations among the mighty columns and arches of St. Paul's. He might have seen me, but I did not like to go like a beggar, my nose clouded above, full of hazy, uncertain shadows, a faint circle of light running round my head, and my face like a pale, yellowish wax. I went, a subdued crimson glow; castward to the chink, dark and somnolent; the windows of the great hall were all closed, and I saw only the altar gleaming in the distance like some funeral catafalque. White figures gleamed in the distance, like the armor of the great warriors, heroes, stablesmen.

Under the dome, in the great open space

tombed chairs, lashed together in rows, looking towards the east. Choosing one of the most central of these I sat down, and began to dream, peopling this wide area with a vast invisible congregation.

In soft, long drawn cadence, the bell of St

Paul's struck out the hour of ten. I had been in the place nearly an hour, I felt chilled and numb. Enough of dreams. Let me wake briskly up and down, and think of the busy scenes awaiting me—the rapid flights over continents and seas; the wanderer's return to the warm, glad welcome; wife and children.

I paced rapidly up and down an avenue between the chairs. I had seen enough; was anxious to be released, to get away from the world of shadows into the living world.

outside. For a moment I stood in what seemed to be the very centre of the dome and looked upward. A faint circle of light marked the apex of the soaring vault, and just above my head I saw—my eyes being now accustomed to this half-light—I saw a rope hanging down from the vast height

Then I remembered the spider-webs I had seen outside about the ball and cross. As I stood, and looked and listened, I heard faint sounds of hammering and knocking. Men were at work, hundreds of feet above my head, above the trees, above the clouds.

In years gone by I used to be a famous gymnast, and the sight of the rope hanging above put me in mind of my ancient prowess. I was heavier now, my muscles less elastic, still there was some salt of youth in me. He

The rope was just out of reach, but I leapt up and caught it—once, twice, thrice. I felt a kind of emulsion with my old self; I wanted to persuade myself that I had not lost

much of my former prowess; and so I went
on drawing myself up and letting myself
down, not touching the ground, till I grew
tired, and stretched myself out, expecting
just to reach the pavement with my toes. But
I couldn't reach it. Casting a glance behind
me, I saw with horror that the flooring

Perhaps, if I had dropped at that moment I might have escaped with only a serious shaking; but I hesitated and was lost. Slowly and steadily, the rope was being wound

up. I shut my eyes. Surely this was
hideous delusion, that another moment would
dispel. But no; as I looked down, the floor
below was almost lost to my sight. There
swung, a tiny human speck, halfway between
heaven and earth. I couldn't hope to have
on much longer. My muscles were weary.

with the task I had given them. I made a desperate effort to raise my hand over my head, so that I might grasp the rope with my feet also ; but it was impossible—I could not do it. Even the desperate energy of self-preservation could extract no more force from my muscles : I could only hold on.

I was now on a level with the plinth that surmounts the great arches of the dome—the gilded ground-work of a new fresco—in the splendidly cast a sort of glow upon me, the colossal figures seemed to mock my agony. I must be half way up now, and for the moment I was indeed.

ment array of hope shone in upon the
could hold on to the end. But, to my depar
I now saw that the seeming dome was a fal
one, above which rose the veritable, conic
roof, another hundred feet or more, and th
through a vast round orifice in the shan dom
the rope was to ascend to the uppermost pea

of the roof. In that moment of torture, I recognised my fate as inevitable. I might prolong my agony for a few seconds; my muscles were involuntarily relaxing; my grasp would fail; in another minute at furthest, I must fall, to be dashed to pieces on the adjoining floor below.

A thousand confused thoughts whirled through my brain, like the smoke and sparks of an approaching conflagration, but especially clear in my mind's eye, I saw—I did not think, but saw this vision, the picture of my far-off home, the rolling plains of grass, the

My limbs relaxed; my senses almost de-

"How do you feel now, sir?" I heard a voice very close to my ear. Was it possible—

voice say I was still alive? Yes; my brain was yet conscious. But the frame? Shattered, in doubt, a mere human wreck to which life would be a mockery. I only dared to use my eyes. Any other muscular exertion might bring on torments of which I was then incapable; and yet I had no feeling of pain.

An old man was bending over me, the same who had admitted me; he had a wine-glass in his hands with some liquor in it; a candle burned by his side, forming a little chamber of light about me.

"Am I knocked all to pieces?" I whispered.

COX. Belleville, March 17th, 1875. d

Daily Intelligence.

TUESDAY, MARCH 30, 1875.

Town and Vicinity.

TO SUBSCRIBERS.—Any subscribers to the DAILY INTELLIGENCER who do not receive their papers regularly, will confer a favor by leaving word at the office.

PRACTICE.—The members of No. 1 High Company held practice yesterday afternoon. The routine threw well, but a thorough test of her power in perpendicular throwing was not made.

A ROW.—There was a row on the corner of Front and Bridge Streets shortly after midnight. The quantity of blood upon the sidewalk gave evidence that somebody had been hurt.

FEVERITY.—The departure of the solemn session of Lent was last night celebrated by no less than three public "dances" at which the fun was kept up until about 4 o'clock this morning.

WANT ORIENTO.—A number of the street drains need to be opened, in order to clear the flooded sidewalks. A very little labor would do it, and it is to be hoped that the necessary work will be done quickly.

AN AVERAGE.—There was an average number of lodgers in the cells last night, namely five. Three of the party were able-bodied men, and the others were the wife—husband and wife—of those unhappy experience in Canada we wrote some days ago.

CONCERT.—The concert in aid of the new Church in the Station district will take place this evening, in the Metropolitan Hall. Many of our cleverest musicians have given their services, and a large audience will doubtless assemble to listen to the music and at the same time, aid a worthy object.

PERSONAL.—It afforded us pleasure to be able to greet our worthy Chief of Police, who was abroad yesterday for the first time in several weeks. Mr. Petro has been dangerously ill with pneumonia of the lungs, and his looks bear evidence of a hard struggle with the universal enemy. We trust, however, that his convalescence may be rapid.

THE JOIN STREET AFFAIR.—The Town Council, it will be seen by reference to their proceedings, at the session held yesterday afternoon, have resolved to bring matters to an issue with Mr. Cronk, by instructing the Street Surveyor to remove the obstructions from Rear Street. This is a timely action, and will meet with the approval of the vast majority of the people.

DEAF AND DUMB INSTITUTION.—The pupils as usual enjoyed their Easter party last night, and the presence of a number of ladies and gentlemen from the town and neighborhood added to the interest of the occasion. School exercises were commenced again this morning. We learn that a number of deaf and dumb boys cleared the snow from the side walks to the town line this morning.

AN EXAMPLE.—It will be seen by our Police Court report that the Police Magistrate has made an example of some youthful rowdies, who doubtless thought it sport to break the windows in a Frenchman's house last night. The sending of these youths to gaol for forty days as common vagrants may have some effect upon those who would be disposed to set the law at defiance in a similar manner.

LADIES' SALE.—Don't forget the Sale and Entertainment in the basement of St. Andrew's Church on Thursday evening the 1st of April. There will be some fine music given during the evening, and those who wish to attend the sale and have not time to go home to their tea can be supplied with refreshments as early as seven o'clock if desired. Judging from the preparations being made, we have no doubt there will be a good variety of choice articles on sale.

DEATH.—We regret to learn of the death of Mr. Charters, formerly a resident of this town, which occurred some four or five weeks ago. It appears he was stationed at Fort Portage, on the Duane Route, and death was caused from a severe cold which settled upon the lungs. Some friends who heard of his death, went to the Portage with a dog train and brought his remains to Prince Arthur's Landing, where they were buried about ten or twelve days ago.

SPECIAL NOTICE.—It will be seen by advertisement that the annual meeting of the Belleville Tract Society will be held in the Grand Street Methodist Church this evening at 7:30 o'clock. Rev. T. Bone, Secretary and Agent of the U. C. Tract Society will give some instructive sketches of his labors among the sailors during the past year. Also Mr. Cronk, the Dominion Secretary of the Y. M. C. A. will give an account of the great revival work in Bradford. The resident ministers of the Town are also expected to take part in the meeting.

Police Court.

(JUDGE J. DUNN, ESQ., P. M.)

TUESDAY, MARCH 30.

S. H. PHILIP charged J. W. Wess with using abusive language towards him. The case was proved, and defendant was fined \$1 and costs.

J. A. LARSEN.

John Anderson, who was convicted yesterday, was sentenced to gaol for two months.

MARCHING INJURY TO PROPERTY.

William Martin, Austin Malpas, and Thos. Kegan, three youths, from 14 to 17 years, were charged with breaking the windows of Joseph Beaulieu's house last night. The evidence for the prosecution was to the effect that prisoners came to complainantly knock about 8 o'clock last night, and knocked at the door. On the sun and moon-day of complaint going to the door, the defendants began to assault them with their hands and feet, and beat them on the neck with his fist, and Kegan made towards him with a knife, which Beaulieu kicked out of his hand and afterwards picked up. The knife was produced in court. One of the prisoners bore several pieces of glass on his head.

The Magistrate treated the prisoners as common vagrants, and sent them to gaol for 40 days, at the same time remarking that he would set a stop to such practices on the part of young blockheads.

Special Telegrams.

FROM OTTAWA.

MILITARY SECRETARY.

The Georgian Bay Branch.

A RUMORED FATAL QUARREL.

RAILWAY BONUS GRANTED.

Suit for Damages.

REFORMED CHURCH.

OTTAWA, MARCH 30.

Harry Moody, formerly Secretary to the Lieut. Governor of New Brunswick, will succeed Col. F. A. M. as Military Secretary to the Governor General.

Mr. Foster will leave for England tomorrow on business connected with the Georgian Bay branch of the Canada Pacific Railway.

It is rumored that a man named Blanche was shot dead this morning at the Gatineau Point, while quarrelling with a Frenchman. Both men are said to have been drunk.

Yesterday, the By-law granting a bonus of \$75,000 to the Canadian Central Extension from Renfrew to Pembroke was carried, only one ratepayer opposing it.

Justice Lyon yesterday dismissed the case of Valois vs. G. H. Preston. The cause of the suit arose out of an attempt on the part of the plaintiff to make the defendant pay damages for loss of a horse.

The Insolvency Act of 1869. Preston intends to prosecute Valois & Co. for \$50,000 damages, for endeavoring to injure his reputation.

Rev. Mr. Cronk, of the Belvidere Church, has resigned the pastorate. His successor will be appointed by Bishop Chenevix of Chicago.

FROM QUEBEC.

CABINET MEETING.

EASTER MONDAY.

Harbor Commissioners Bill.

QUEBEC, MARCH 30.

Messrs. Angers and Gagnon left here last night, to attend a cabinet meeting, to be held to-day in Montreal.

Yesterday the courts and Government offices were closed, otherwise the day was not observed.

Dissatisfaction exists here regarding the contemplated change in the Quebec Harbor Commissioners Bill. The clause which provides for the removal of the members of the commission, who are nominated by the Board of Trade of Quebec and Lewis, to make room for Government representatives, is severely criticized.

Weather very fine.

FROM BRACKVILLE.

THE ABORTION CASE.

THE CULPRITS SENTENCED TO BE HUNG.

BRACKVILLE, MARCH 30.

The verdict of the jury in the abortion case is that Graves and Sparham are both found guilty, and sentenced to be hanged on the 23rd of June next.

A Good Hammer.

Twenty-nine years ago, when David Maydale was a young blacksmith at Brackville, New York, six carpenters came to the village from the next county to work upon a new church, one of whom, having left his hammer behind, came to the blacksmith to get one made, there being none in the village store.

"Make me a good one," said the carpenter, "as good as one you know how."

"That," said the young blacksmith, "who had already commenced hammering, and had arrived at some notion of what a hammer ought to be, let him have a proper contempt for carpenters in all his forms."

"You'd do it," said the carpenter, "as good as one you know how."

And so David Maydale made a good hammer, that party satisfied the carpenter, the next day the man's companions came, each of them wanting just such a hammer, and when they were done the one hammer was divided into two.

The storekeeper of the village ordered two more, which were brought for a New York tool merchant, who left standing orders for as many such hammers as David Maydale had gone on making hammers, until now he has 110 men at work. He has never paid, but to complete with others in price, because other men had done so. His only care was to make a perfect hammer, to make as many such as people wanted and no more, and to sell them at a fair price.—Methodist.

MORNING DESPATCHES.

EUROPEAN.

The Revivalists in London.

LONDON, March 30.—Mr. Moody preached to an immense gathering in Liverpool yesterday. Among the audience were some 2,000 persons, who were converted during the former visit of the revivalist. Mr. Taylor, of Manchester, delivered a sermon at the Agricultural Hall, Kingston, last night, in the absence of Mr. Moody.

At the opening of the trial Evans stated that a witness of importance was very sick, Henry M. Cleveland, and was about to leave the city. He asked the court to make arrangements to take his testimony, and would like Judge Nelson to be present at the examination. The judge said that counsel should make what arrangements that might be necessary, and suggested some afternoon, which was agreed to by counsel, but the day was not definitely fixed. Horace R. Clafin then resumed the witness stand and testified.

Waltham, March 30.—Probabilities.—For New England and the middle states pretty cloudy and warmer weather, with north easterly wind, falling to easterly and southerly, and high barometer during the day.

AMERICAN.

Fatal Fire in Minnesota.

KILLED BY A TRAIN.

Republican Success in Maine.

A NEWSPAPER MAN IN PRISON.

HEAVY DAMAGES.

SUDDEN DEATH OF A CAOLER.

Arrest of a Supposed Murderer.

ST. PAUL, Minn., March 30.—On Sunday morning, the house of a farmer named Colson, Parker's Prairie on the Northern Pacific Railroad, took fire from the explosion of a kerosene lamp. The flames communicated to the night clothes of the father, mother and five children. The family were all badly burned. They dragged themselves to the nearest neighbor's, a mile distant, barefooted and naked over the snow. The father and two children have since died, and it is thought the mother and another child cannot long survive.

REINDEER, N. J., March 30.—John Phillips, baggage-master on the Pennsylvania Railroad, was killed by a train at March Chink junction last night.

BORON, March 30.—The municipal elections in Eastern Maine to-day resulted generally in the success of the Republicans.

CHICAGO, March 30.—Mr. Storey, copious jailer
